

Dear Rangsit University,

Please **do not reply** to this email message. Instead, contact SSI Customer Support at [mels@ssicentral.com](mailto:mels@ssicentral.com).

Thank you for ordering LISREL for Windows.

### **INSTALLATION**

- LISREL for Windows requires the **Windows 7 or 8** editions of **Windows Parallels on Mac computers**.
- LISREL for Windows does not support remote access, Remote Desktop, and virtual machines.
- The URL for the installation application is <https://www.hightail.com/download/OGhkeVdwYUIwaFNVbDhUQw>.
- Save the installation application to a USB flash drive.
- Use the **Run as Administrator** option on the **right-click menu** of the installation application to run the application.

### **CONFIGURATION**

- Use **Computer** to open the contents of **C:\Program Files (x86)\LISREL9\**.
- Select the application **LISWIN32.EXE** by clicking on it.
- Select the **Properties** option on the right-click menu to load the **Properties** dialog box.
- Click on the **Compatibility** tab.
- Check the **Run the program as an administrator** check box.
- Click on the **Apply** button.
- Click on the **OK** button.

### **ACTIVATION**

- Activation requires an active internet connection.
- The activation code for your software is:
  - **3185-CD22-CF1A-C636**
- The activation code can be used for activating the software on **1** computer(s).
- For a single activation, an activation on a laptop computer, notebook, or a netbook is recommended.

For download problems, installation problems, and activation problems, contact SSI Customer Support at [mels@ssicentral.com](mailto:mels@ssicentral.com).

Thank you for choosing SSI software and services.
